Victorian Energy Upgrades

Reducing energy costs for Victorian businesses

Metcash Trading Ltd

"The savings made
the business case
a no-brainer for us.
Our energy bills
have been cut by
\$300,000 a year."

Leon Fairfield,
Logistics Operations Manager,
Metcash Trading Ltd

Victorian Energy Upgrades is helping businesses save on energy bills and take action on climate change.

Energy upgrades for Metcash Trading Ltd, Laverton North

Metcash Trading Ltd is a distribution company that supplies Victorian supermarkets and liquor outlets.

The company, based in Laverton North, was interested in finding out the best way to save on energy bills and increase their energy productivity.

By working with their local accredited provider, Metcash upgraded over 2,000 lights across four distribution warehouses and offices.

Through Victorian Energy Upgrades, Metcash halved the cost of purchasing energy-efficient lighting and greatly reduced the time it took to recover their initial investment.

In addition, because of their reduced energy consumption, they are now saving a staggering \$300,000 off their annual energy bills.

"It was critical that our operations weren't affected, so they did the work at night and during off-peak times. The lights are great and we now have a safer workplace."

- Leon Fairfield

How the program works

Victorian Energy Upgrades is a Victorian Government program providing discounts on energy-efficient products and appliances.

To view the energy-saving upgrades that are available and to find an accredited provider in your area, head to www.victorianenergysaver.vic.gov.au or call (03) 9032 1310.
